Financial Management

Financial management of the municipality is sound with the municipality achieving its first ever unqualified audit report. The financial statements as at the 30 June 2008 indicated an accumulated surplus of R 4 215 140, with an operating deficit of R 455 753 for the year. However the revenue includes capital grants of R 542 418 (capital expenditure grant funded) in accordance with GRAP/GAMAP, accordingly the accumulated surplus does not include capital grants. Therefore the actual deficit for the year is R 998 171.

The major sources of revenue is grant funding in the form of equitable share which is used exclusively for operating purposes; rates and service charges (refuse removal). The cash flow situation presents a regular challenge. At year end the percentage paid in regard to accounts raised amounted to 40%. An aggressive debt recovery process has as a result been undertaken.

From the 1st July 2008 all properties were rated in terms of the Municipal Property Rates Act No. 6 of 2004. The implementation of this act has added to the burden of a under resourced finance department and despite initial problems with the valuation of the agricultural sector, the implementation has been a success.

A shared service agreement with regard to Internal Audit and the Audit Committee has been established with Sisonke District Municipality.

Direct MIG funding of R 3 370 000 has been received in the 2008/2009 financial year. The municipality has in the past received the MIG funding via the District Municipality. Initial teething problems were experienced with regard to prescribed MIG processes to be followed as no training had been received. A project management unit was not formed instead this function is being performed jointly by the planning and finance departments. The three community hall projects are on schedule.
